Education:

10th: 87.60%
12th: 56.33%

BCA 1st: 9.38 SGPA
BCA 2nd: 9.60 SGPA
BCA 3rd: 9.69 SGPA

About Me :

I'm an MCA (1st Year) student with a BCA background and hands-on experience in full-stack development. Skilled in Java, Spring Boot, React, and MySQL, I'm now expanding into the MERN stack to build modern, scalable web apps. My projects—like a real-time chat app, music player, YouTube clone and insurance management system—showcase my ability to create responsive UIs and robust APIs. I'm passionate about solving real-world problems and growing as a full-stack Java/MERN developer.

Projects :

• ChatApp:

<https://digvijaykarande.github.io/openchat>

A Chat application developed using React +Firebase. Provide features like group chat, personal messaging. Protect the user data by providing authentication, authorization and encryption.

• Excel Analytics:

<https://excel-anlytics.netlify.app/>

Excel Analytics platform where user can upload excel file and visualize it in pie chart, bar graph, line graph etc. User can download it in PNG or JPG format. Also integrated with AI , AI can summarize the entire excel file in simple language.

• YouTube clone :

<https://digvijaykarande.github.io/youtube-clone/>

A YouTube clone with features like play videos, search videos, categories ,etc. completely responsive support mobile and desktop devices. Created using react and youtube-data-api.

• IMDB Clone:

<https://digvijaykarande.github.io/movieshouse2>

This is IMDB clone website to get data about movies and shows from all over the world. Created using React for frontend and TMDB Api.
